About The Project

Mini Slava, a residential project, is one of the various Slava Company projects alongside their existing Slava residential project. The project area is (10390 sqm) and has a strategic location on the (120m street) nearby Family Mall. The Mini Slava project will be constructed with the highest engineering quality and standards. The project consists of Four-20 story Building residential towers that can accommodate (592) residential units and 2 underground car parking floors for the residents of the project. The project will also include amenities like cafes, restaurants, fitness center, and children's playground to benefit both residents and non-residents. In addition to the included amenities, 25% of the project will be dedicated to the development of green areas.
